# I'MASPEAKER

## CD SOFTCASE WITH INTEGRATED SPEAKER

*Music >> Everyone. Everywhere.*

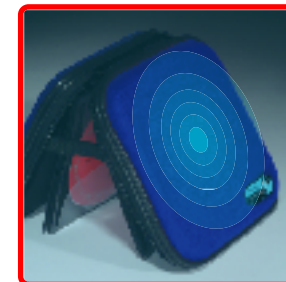

I'MASPEAKER looks like a conventional CD softcase, but an integrated speaker(s) infuses an innovative twist. Featuring renowned NXT flat panel speaker technology, I'MASPEAKER connects to virtually any portable audio player or notebook PC, creating an anytime, anywhere portable sound system. Available in a variety of configurations.

Available in a variety of disc capacities, each I'MASPEAKER includes an internal mesh accessory pocket for your portable CD or MP3 player. Featuring a sturdy, zippered design and soft fabric disc sleeves, I'MASPEAKER keeps your important discs safe and sound. Connected to a portable audio player, I'MASPEAKER plays your music with ample volume and crystal clarity. Connected to a notebook computer, I'MASPEAKER takes your presentations to the next level ñ say goodbye to your PC's anemic built-in speaker.

Connect your audio source, switch I'MASPEAKER on and you're good to go. Powered by AA batteries, the hidden NXT flat panel speaker(s) delivers top-notch sound and ample volume. Listen with I'MASPEAKER zipped or unzipped ñ the sound radiates from the hidden speaker(s), through the case's exterior panel. I'MASPEAKER is the ideal anywhere, anytime sound system for portable audio players and notebook computers.
