Safety and Care Instructions

(Be sure to read before using this product)

- The cautions listed here include important matters to prevent injury to users or other persons as well as any property damage, in addition to insuring correct and safe use of the product.
- Be sure you understand the meaning of the displays and symbols before reading the main text. Be sure to observe the cautions at all times.

The level of injury and damage resulting from mistaken use of the equipment is classified and described according to the following displays. The items to be observed are classified and described as follows.

Warning Indicates matters for which failure to observe the display and mistaken use of the equipment could lead to fatal or serious injury.

Caution Indicates matters for which failure to observe the display and mistaken use of the equipment could result in injury or property damage.

- Warning**
- Do not place water or drinks on all parts of the equipment. Water in the interior could cause fire or electric shock.
 - Do not insert foreign objects in all parts of the product. Metal or easily burnable objects inside the product could cause fire or electric shock.
 - Disassembly or remodelling. This could cause fire or electric shock. Always ask your dealer or the Imation Service Station for repair or inspection.
 - Do not damage the power cord. Damage to the power cord could cause fire or electric shock. Never attempt to fix the power cord. Do not place heavy objects on it or pull it with excessive force. Contact your dealer or Imation Service Station if the power cord became damaged.

Features

The TDK Life on Record Xa-10 flat panel stereo speakers are a unique portable system that lets you enjoy stereo sound from a compact, space saving design.

Compact design ideal for travelling

Using magnetic components, the flat panel speakers 'stick' together to save space and protect the speakers while packed away.

Easy connection and operation

Using the connection cable in the pack, you can easily connect to a wide range of devices including portable CD and DVD players, MP3 players, laptops and game consoles. Power is supplied via the USB port of an electronic device or via the battery box in the pack for instant stereo sound.

Flat panel speakers for a broad stereosound

The mid and high range flat panel speakers featuring NXT[®] SurfaceSound[®] technology offer virtually 360°-degree directivity across all frequency ranges.

Safety and Care Instructions

(Be sure to read before using this product)

- Warning**
- Do not use in wet places or in high humidity. Using this equipment in places with high humidity such as bathroom could cause the units fire or electrical shock to the person comes in contact.
 - Do not have any contact with the electrical cord or power source when units are in function. This could result in electrical shock.
- Caution**
- Do not engage with the power source with wet hand. Inserting or removing batteries / power cable with wet hand could cause electrical shock.
 - Do not locate in area with direct sunlight or near thermal appliances. This could cause the equipment to break down or burn to whom comes into contact.
 - Clean the equipment at regular intervals in dry condition. Dust and dirt may come in contact especially when equipment in function for a long period of time. It could cause the equipment to be overheat or fire.
 - Do not listen to the equipment over long periods at high volume. Listening for long periods at high volume could have a negative effect on the hearing as well as the performance of the equipment.
 - Remove the batteries / power cable when absences of use. For safety purposes, be sure to remove all power sources from equipment to avoid accident or other abnormal status cause by such causes.
 - Locate in a stable location. Placing the equipment in an unstable location or on a slant could cause the equipment to fall and result in injury to who encounter. Also be careful about the strength of the installation and attachment location.
 - Do not use the equipment other than with the power sources provided or DC 5V adapter. This equipment is intended only for use with four AAA alkaline batteries, USB power cables or DC 5V adapter. Other than those could cause the equipment not functioning or break down.

Operating Instructions for Optimum Performance and Safety

Placement of the sound system

Please avoid the following locations:

- Places with high humidity and poor ventilation.
- Places exposed to direct sunlight and places near heating devices, which may cause higher temperatures.
- Places exposed to extreme cold and dust.
- High places where there is danger of falling.

Cleaning of the system

Clean with a soft dry cloth. If the unit is extremely soiled, wipe with a soft cloth slightly moistened with a small amount of mild detergent, and subsequently dry with a fresh soft cloth. Please avoid using painter thinner, benzene, and alcohol, which will damage the surface of the devices.

Connecting cables

If you use a cable other than the accessory connection cable, be sure to first read the Instruction Manual of the device to be connected. Select the cable according to the configuration of the output terminal on the device.

Imation Warranty

Imation warrants to the end-user customer that the TDK Life on Record Speakers will be free from defects in material and workmanship for a period one (1) year from date of purchase. If Imation receives notice of any such defects during the warranty period of Imation will, at its option, either repair or replace the product, which it finds to be defective at no charge (except for shipping and insurance).

This limited Warranty does not apply when the malfunction results from the use of the Product in conjunction with other products, software or accessories, or where it is determined by Imation that there is not fault with the Product itself.

In no event shall Imation be liable for any incidental or consequential damages resulting from the use of the product.

Imation Warranty

Except for the clauses below, Imation will repair (or at its option replace) any part of your TDK Tremor[™] speakers which in its repair's option needs repair or replacement because of defective manufacture or parts during the 1 year from your Tremor speakers' original buying date.

How To Claim Your Imation Warranty

- Please provide proof or original buying date when requesting Imation warranty service.
- Please install and use your Tremor speakers in accordance with instruction in your operating manual.

Place and Time of Service

Please take or send your Tremor speakers (at your cost and risk) to and from Imation or its repairer. If you send your Tremor speakers and/ or leave it with or it is taken by Imation or its repairer you are wise to insure it for both the sending and return journey.

Services for which you may be asked to pay

Repair needed because of

- cockroach or other insect or mice damage.
- accident, misuse, negligence or tampering with.
- use other than in accordance with instructions on your Tremor speakers or in your operating manual.
- lighting strikes.
